

VAKT Spelling Practice (Visual, Auditory, Kinesthetic, Tactile)

Pick 5 words to be mastered. Write each word on a notecard, large enough to be traced repeatedly with markers.

Have your child:

1. Read and say the word.
2. Say the word in a sentence.
3. Trace the word with a marker while spelling the word out loud.
4. Take a "picture" to get the picture in his/her memory.
5. Cover the word and spell it out loud.
6. Double check for accuracy.
7. Repeat with the next word/card.

Do this with approximately 5 words every day. Keep working on the same words until one is mastered. Then, swap out the mastered word with a new word to learn. (Pick words from the second grade spelling list).
