

# LEARN CODING: PERSONALIZED, IN-DEPTH, AND RISK-FREE

\*Webster Groves School District does not sponsor or endorse this activity

## Our Summer Program

**One-on-one** coding lessons and mentorship for middle & high school students from top computer scientists –  
*all from the comfort of your own home.*

## What You'll Learn

AI • Game Dev • Web Design • Health+tech • Mobile Apps • Cyber Security

## Highlights

- ✓ **Top computer scientists as instructors** - from companies, like SpaceX and Google, and elite universities, such as Harvard and Stanford
- ✓ **One-on-one lessons** - allowing students to go at their own pace
- ✓ **Increased college competitiveness** - work on projects to showcase student's skills & passions
- ✓ **In-depth knowledge in emerging CS fields** - based on student's interests, delve into specialized fields rarely taught to K-12 students

Space is limited to 100 students.
