8	44,120	50,738	57,356	69,489	81,622

Income figures subject to change in accordance with 2021 guidelines

Find the number of persons in your immediate family in the first column; then go across that row to see where your total income falls. Your income must not exceed the dollar amount listed. If it does, shift one column to the right. If your income is above the dollar amount in the last column on the right, we will not be able to offer you financial assistance. If your family's income falls within these guidelines, you may submit an application for financial assistance.

Families that apply for financial assistance will be required to submit income information (i.e. W2, tax return, paycheck stubs, child support agreement) for BOTH parents.

If your family is awarded a scholarship, no additional discounts (i.e. sibling discount) will be applicable.
