

## Classroom Connection

Mrs. Lorson

March 10, 2021

- **Sustainability:** In science and social studies we will be learning about sustainability. Our definition for sustainability will be "using the resources we need now to live, without hurting the ability for people in the future to meet their needs." We begin the unit by asking "How does the Earth provide for us?" and "How can we help the Earth?" In April, we will take a closer look at rainforest plants and animals and study the parts and structures that help them survive in the rainforest. At school the students will research a rainforest animal and write a non-fiction book about their animal. The first graders will also make a rainforest in the classroom.
- **Spring Conferences:** I look forward to speaking with each of you at your conference. Please use this link to check your time.  
<https://www.signupgenius.com/go/4090B4DAFAE2EA2FB6-mrs4>  
Please sign in to zoom at your assigned time. Use this zoom link:
