

## Classroom Connection

Mrs. Lorson

November 15, 2023

**Sun and Moon:** In Science we are studying patterns of the sun and moon. You can support your child's learning by encouraging them to look at the sky and make observations. They can look to see where the sun is positioned in the sky at different times of day and they can watch the moon as it changes shape throughout the month.

**Hawken House Field Trip:** One of our Social Studies goals this year is to compare and contrast our community in the past and present. We will be touring the Hawken House to do just that. In today's folder you will find more information about this walking field trip. I am looking for 3-4 volunteers. If you are interested in joining us please fill out the form and return it to school by Friday, 11/17/23.

**Writing Journals:** Today you will find your child's first two expressive journals in their backpack. You may want to take a few minutes to look these over with your child. It is neat to see how much they have grown as writers. These are yours to keep.

**Thank You!** I am happy to be back at school. All indicators suggest my surgery was a success. The healing process will continue in the upcoming months, but it is a relief to have the surgery complete. I am very grateful for the thoughtful gifts and kind words you gave me. It really helped me keep my spirits up during this time. Thank you for your support.

**Upcoming dates to note:**

**11/22-11/26 Thanksgiving Break**

**11/28 Field trip to Hawken House**
