

According to St. Louis Children's Hospital (including wind chill):

- 32° to 90° - children can stay out for unlimited amount of time
- 20° to 32° - children can stay out for 10 to 15 minutes
- 10° to 20° - children can stay out for 5 minutes
- 10° or below - children should not go outside

These are the temperature guidelines we will follow for recess. When there is a question about going out, please call the office.
