RE: APPROVAL OF 2015/16 FINAL AUDIT REPORT

In compliance with Board policy and state statute, an audit of Webster Groves School District's 2015/16 financial statements was performed by CliftonLarsenAllen, CPAs. A preliminary draft of their audit report was reviewed with the Board at its November 14, 2016 meeting. There were no changes to this draft report and a final version of it is now presented for formal Board approval. According to state law and DESE regulations, a copy of the Board approved district audit must be submitted to DESE by the district by December 31st of each year.

Also, in accordance with RSMO 165.121.5, a summary of this audit report shall be prepared by the district and published in a newspaper of general circulation in the district. In addition, copies of the full audit will be maintained in the Business Office for inspection by the public during normal business hours.

RECOMMENDED BOARD ACTION....that the Webster Groves School District Board of Education approve the accompanying 2015/16 final audit report dated November 14, 2016 from CliftonLarsenAllen, CPAs.

Board of Education
Webster Groves School District
Webster Groves, Missouri

We have audited the financial statements of the governmental activities, the discretely presented component unit and each major fund of Webster Groves School District (the school) as of and for the year ended June 30, 2016, and have issued our report thereon dated November 14, 2016. We have previously communicated to you information about our responsibilities under auditing standards generally accepted in the United States of America, *Government Auditing Standards*, and Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. Professional standards also require that we communicate to you the following information related to our audit.

Significant audit findings

Qualitative aspects of accounting practices

Accounting policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the school are described in Note 2 to the financial statements.

New accounting standards GASBS No. 72 related to accounting for fair value measurement and application and No. 79 related certain external investment pools and pool participants have been issued and were adopted by the District.

We noted no transactions entered into by the school during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no accounting estimates affecting the financial statements which were particularly sensitive or required substantial judgments by management.

Financial statement disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

- The disclosure of Long-Term Debt in Note 5 to the financial statements. Debt transactions can be very complicated and bonding capacity is very important to a school district so it is important that the disclosure be accurate.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties encountered in performing the audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Uncorrected misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management did not identify and we did not notify them of any uncorrected financial statement misstatements.

Corrected misstatements

Management did not identify and we did not notify them of any financial statement misstatements detected as a result of audit procedures.

Disagreements with management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. No such disagreements arose during our audit.

Management representations

We have requested certain representations from management that are included in the attached management representation dated November 14, 2016.

Management consultations with other independent accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the school's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Significant issues discussed with management prior to engagement

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to engagement as the school's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our engagement.

Other information in documents containing audited financial statements

With respect to the schedule of expenditures of federal awards (SEFA) accompanying the financial statements, on which we were engaged to report in relation to the financial statements as a whole, we made certain inquiries of management and evaluated the form, content, and methods of preparing the SEFA to determine that the SEFA complies with the requirements the Uniform Guidance, the method of preparing it has not changed from the prior period or the reasons for such changes, and the SEFA is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the SEFA to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated November 14, 2016.

Other information in documents containing audited financial statements (continued)

With respect to the Schedule of Receipts, Disbursements and Changes in Fund Balance - Budget to Actual - Debt Service Fund and Capital Projects Fund, the Schedule of Receipts by Source – All Governmental Funds, the Schedule of Disbursements Paid by Object and the schedule of expenditures of federal awards, (collectively, the supplementary information) accompanying the financial statements, on which we were engaged to report in relation to the financial statements as a whole, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period or the reasons for such changes, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated November 14, 2016.

The Management’s Discussion and Analysis accompanying the financial statements, which is the responsibility of management, was prepared for purposes of additional analysis and is not a required part of the financial statements. Such information was not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we did not express an opinion or provide any assurance on it.

Our auditors’ opinion, the audited financial statements, and the notes to financial statements should only be used in their entirety. Inclusion of the audited financial statements in a document you prepare, such as an annual report, should be done only with our prior approval and review of the document.

Report on the Financial Statements

We have audited the accompanying cash basis financial statements of the governmental activities and each major fund of Webster Groves School District, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position – cash basis of the governmental activities and each major fund of the Webster Groves School District as of June 30, 2016, and the respective changes in financial position – cash basis, thereof and the respective budgetary comparison for the General Fund and the Major Special Revenue Fund – cash basis for the year then ended, on the basis of accounting described in Note 2.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Webster Groves School District's basic financial statements. The other supplementary information on pages 33 through 39 as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulation, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards*, is also presented for purposes of additional analysis and is not a required part of the basic financial statements.

The other supplementary information on pages 33 through 39 and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Board of Education
Webster Groves School District

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2016, on our consideration of the Webster Groves School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Webster Groves School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2016
(UNAUDITED)**

The School District of Webster Groves financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the School District of Webster Groves financial performance as a whole; readers should also review the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

The School District of Webster Groves GASB 34 reporting model for fiscal year ended June 30, 2016 will include an analysis with comparative data between year ending June 30, 2016 and June 30, 2015.

Key financial highlights for 2016 are as follows:

- ❖ The District's financial status, as reflected in total net position is \$20,398,989. The District had a beginning net position balance of \$39,510,438 which produced a fiscal year decrease of \$19,111,449. The restricted Net Position balance encompasses balance reserved from bond issue sales. Below is a reflection of net position changes from 2015 to 2016.

	2016	2015
NET POSITION		
Restricted	\$ 789,542	\$ 22,226,600
Unrestricted	19,609,447	17,283,838
Total Net Position	\$ 20,398,989	\$ 39,510,438

- ❖ The School District had \$81,911,463 in disbursements; \$7,859,637 of the disbursements was offset by program specific charges for services, grants or contributions. General receipts (primarily taxes) of \$54,940,377, along with receipts for operating grants and contributions and escrow funds adequately provided for these programs. Shown below is a two year comparison:

	2016	2015
Charges, Operating Grants, and Contributions	\$ 7,859,637	\$ 7,524,902
All Other Disbursements		
Salaries, Benefits, Supplies, Equipment, etc.	74,051,826	56,300,033
Total Disbursements	\$ 81,911,463	\$ 63,824,935

- ❖ Total assets of governmental activities were valued at \$20,650,175. Current assets include cash and cash held in escrow by Trustee.

	2016	2015
ASSETS		
Current	\$ 20,650,175	\$ 39,626,307
Total Assets	\$ 20,650,175	\$ 39,626,307

- ❖ The District's current assets decreased by \$18,976,132 from last year due to The District's 2006 Series Bond being paid off in the current year resulting in a large decrease in the escrow account balance.

Financial Highlights (Continued)

- ❖ Total liabilities were \$251,186. These liabilities are Payroll Deductions and Withholdings.

LIABILITIES	2016	2015
Current	\$ 251,186	\$ 115,869
Total Liabilities	\$ 251,186	\$ 115,869

- ❖ The District is reporting a July 1, 2015 beginning Fund Balance of \$39,510,438 and has a June 30, 2016 ending fund balance of \$20,398,989. The decrease of \$19,111,449 is primarily due to the payment of bonds.
- ❖ Among major funds, the Operating Funds, (General, Special, and Capital Projects) had \$57,626,954 in receipts and \$55,653,482 in disbursements. The School District transferred \$12,412,635 from the General Fund to the Special Revenue (Teachers) Fund and transferred \$717,092 from the General Fund to the Capital Projects Fund. The Operating Fund's balance was \$19,601,293 as of June 30, 2016.
- ❖ Debt Service Fund had \$5,173,060 in receipts and \$26,257,981 in disbursements. The Debt Service Fund's balance decreased \$21,084,921 for fiscal year ending June 30, 2016 due to continuing payments on bonds, which were not specifically identified in the original budget of the Debt Service Fund.

Using the Other Comprehensive Basis of Accounting (OCBOA)

This annual report consists of a series of financial statements and notes to those statements. The Statement of Net Position and the Statement of Activities are presented on pages 13 and 14. Fund financial statements start on page 15. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. The statements then proceed to provide an increasingly detailed look at specific financial activities.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District of Webster Groves as a whole looks at all financial transactions and asks the question, "How did we do financially during school year 2015-2016?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the cash basis of accounting which is an Other Comprehensive Basis of Accounting than Generally Accepted Accounting Principles. The District's policy is to prepare its financial statements on the cash basis of accounting; consequently, revenues are recognized when received rather than earned, and expenditures and purchases of assets are recognized when cash is disbursed rather than when the obligation is incurred.

These two statements report the School District's net position and changes in those assets. This change in net position is important because it tells the reader that, for the School District of Webster Groves as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not.

In the Statement of Net Position and the Statement of Activities, the School District of Webster Groves reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are reported including, but not limited to: instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities. The School District of Webster Groves does not have any business-like activities.

Reporting the School District of Webster Groves Most Significant Funds

Fund Financial Statements

The analysis of the School District of Webster Groves major funds begins on page 15. Fund financial reports provide detailed information about the District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General (Incidental) Fund, Special Revenue (Teachers) Fund, Debt Service Fund, and Capital Projects Fund.

Governmental Funds

Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These statements include all significant assets and liabilities using the cash basis of accounting, which is an Other Comprehensive Basis of Accounting (OCBOA) than Generally Accepted Accounting Principles. Under this basis of accounting, revenues are recognized when received rather than when earned, and expenditures and purchases of assets are recognized when cash is disbursed rather than when the obligation is incurred. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Governmental Activities (Continued)

The School District of Webster Groves had \$81,911,463 in disbursements; \$7,859,637 of these disbursements was offset by program specific charges for services, grants or contributions. General receipts (primarily taxes) of \$54,940,377, along with the offset of program specific receipts and escrow accounts for bond payments allowed the District to have adequate resources to provide for these programs.

Disbursements for instruction and student services account for 44 percent of total district disbursements at \$36,276,077. Disbursements for student support services, administration, facility improvements, and facility construction account for the majority of remaining disbursements at \$45,635,386 or 56 percent.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax receipts and unrestricted State entitlements.

Governmental Activities (Continued)

- ❖ General Administration and Central Services includes disbursements associated with administrative and financial supervision of the District. It also includes disbursements related to planning, research, development and evaluation of support services, as well as the reporting of this information internally and to the public.
- ❖ Operations of Plant activities involve keeping the school grounds, buildings, and equipment in an effective working condition.
- ❖ Transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.
- ❖ Food Services include the preparation, delivery, and servicing of lunches, snacks and other incidental meals to students and school staff in connection with school activities.
- ❖ Community Services includes disbursements related to student activities provided by the School District which are designed to provide opportunities for pupils to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement.
- ❖ Facility Acquisition and Construction includes disbursements for land or existing buildings; improvements of grounds; remodeling of buildings; initial equipment; additional equipment; and replacement of equipment.
- ❖ Debt Service and Fiscal Charges involve the transactions associated with the payment of principal, interest and other related charges to debt of the School District.

The dependence upon tax receipts is apparent. Over 80 percent of instructional activities are supported through taxes and other general receipts. Any fluctuation in local tax revenue will significantly affect the District's operating activities. The community, as a whole, is the primary support for the School District of Webster Groves. Having no additional revenue available from the State of Missouri reinforces the School District's essential reliance upon future property taxes.

The School District's Funds

Information about the School District's major funds starts on page 15. These funds are accounted for using the cash basis of accounting. All governmental funds had total receipts of \$62,800,014 and disbursements of \$81,911,463. The net change in the fund balance total for the year was a decrease of \$19,111,449. The General (Incidental) Fund net change in fund balance was an increase of \$2,444,949. The Debt Service net change in fund balance was a decrease of \$21,084,921. The Capital Projects Fund net change in fund balance was a decrease of \$471,477 due to expenses incurred in Proposition W. The Special Revenue Fund (Teachers) received a transfer of funds from the General Fund (Incidental) to cover the expenses incurred.

General Fund Budgeting Highlights

The School District's budget is prepared according to Missouri law and is based on accounting for certain transaction on the cash basis accounting method which recognizes cash receipts and disbursements.

During the course of the fiscal year 2016, the School District of Webster Groves amended its budget two times, which resulted in a total budget increase of \$1,184,851 in receipts and a decrease of \$716,829 in disbursements.

The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

Capital Assets

The District has chosen to exclude monies invested in land, buildings, furniture and equipment and vehicles from the cash basis financial statements.

Debt Administration

At June 30, 2016, the School District of Webster Groves had \$55,583,280 general obligation bonds, due in varying amounts with interest rate charges over 20 years. The purpose of each debt project was for facility additions and improvements.

Current Financial Issues and Concerns

The School District of Webster Groves is financially stable. The District is proud of its community support for the public schools. As the preceding information shows, the School District of Webster Groves will continue to provide quality programs with little increase in District disbursements for instructional cost.

Due to the current school finance formula of the State of Missouri, the School District must continue to rely heavily upon local revenues to sustain current programs. The District has not recognized any meaningful growth in state revenue for several years.

The Webster Groves School District has committed itself to financial excellence. The District's system of financial planning, budgeting, and internal financial controls are well regarded and the District will continue its sound fiscal management to meet the challenges of the future.

**WEBSTER GROVES SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2016**

NOTE 1 DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Webster Groves School District (the District) was established in 1846 under the Statutes of the State of Missouri. The District operates as a “six director” district (with seven members of the Board of Education) as described in RSMo Chapter 162.

The School District, located in St. Louis County serves an area of approximately ten square miles. It is staffed by 343 non-certificated employees, 336 certificated full-time teaching personnel, 151 certificated substitutes, and 28 administrative employees who provide services to over 4,453 students and other community members. The School District currently operates seven elementary/middle schools (K-8), one high school (9-12), and one other education center.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Webster Groves School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization’s governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization’s resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. As of June 30, 2016, the School District has no component units.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The School District’s basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information. Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. For the year ended June 30, 2016, all of the District’s activities are classified as governmental type.

**WEBSTER GROVES SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2016**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide Financial Statements

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct disbursements and program receipts for each program or function of the School District's governmental activities. Direct disbursements are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program receipts include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Receipts which are not classified as program receipts are presented as general receipts of the School District. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing or draws from the general receipts of the School District.

Fund Financial Statements

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The District uses only the governmental category of funds. All the funds of the District are considered major due in part to an administrative directive from the Missouri Department of Elementary and Secondary Education.

General (Incidental) Fund: Accounts for general activities of the District, including student activities, food service, and textbooks, which are not required to be accounted for in another fund.

Special Revenue (Teachers) Fund: Accounts for expenditures for certified employees involved in administration and instruction. It includes receipts restricted by the state and local tax levy for the payment of teacher salaries and certain employee benefits.

Debt Service Fund: Accounts for the accumulation of resources for, and in payment of, principal, interest, and finance charges on long-term debt.

Capital Projects Fund: Accounts for the proceeds of long-term debt, taxes, and other receipts restricted for acquisition or construction of major capital assets, payment of capital leases, and certain equipment and expenditures designated by Missouri Statute.

Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The School District's policy is to prepare its government-wide financial statements on the cash basis of accounting, consequently, receipts are recognized when received rather than when earned, and expenditures and purchases of assets are recognized when cash is disbursed rather than when the obligation is incurred. Accordingly, the government-wide financial statements do not present the net position and activities of the School District in accordance with U.S. generally accepted accounting principles.

**WEBSTER GROVES SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus and Basis of Accounting (Continued)

Fund Financial Statements

The School District's policy is to prepare its fund financial statements on the cash basis of accounting; consequently, receipts are recognized when received rather than when earned, and expenditures and purchases of assets are recognized when cash is disbursed rather than when the obligation is incurred. Accordingly, the fund financial statements do not present the financial position and results of operations of the funds in accordance with U.S. generally accepted accounting principles.

Budgetary Accounting

The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

In accordance with Chapter 67, RSMo, the District adopts a budget for each fund.

Prior to July the Superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated receipts and proposed disbursements for all District funds. Budgeted disbursements cannot exceed beginning available monies plus estimated receipts for the year.

A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.

The budget was legally enacted by the vote of the Board of Education on June 25, 2015.

Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the Board. Adjustments made during the year are reflected in the budget information included in the financial statements. Budgeted amounts are as originally adopted, or as amended by the Board of Education. Fund increases (decreases) in total equal \$1,184,851 receipts and \$(716,839) disbursements (General Fund), \$536,960 receipts and \$(288,842) disbursements (Special Revenue Fund), \$768,032 receipts and \$7,694,683 disbursements (Debt Service Fund) and \$(21,887) receipts and \$378,824 disbursements (Capital Projects Fund). Budgets for District funds for the current year were originally prepared and adopted on the modified accrual basis of accounting and then amended on the cash basis of accounting, recognizing receipts when collected and disbursements when paid.

Cash

Cash consists of interest bearing accounts and deposits in the Missouri Securities Investment Program (MOSIP). Cash balances from all funds are combined and invested to the extent available in various securities as authorized by Missouri Statutes. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash in Escrow Held by Trustee

Cash in escrow held by trustee consists of United States treasury securities held by the Missouri Securities Investment Program (MOSIP).

Restricted Assets

Assets are reported as restricted when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. The nature of the restriction is:

Restricted for Debt Service: The District has \$196,785 of segregated resources for purposes of servicing general obligation bonds.

Restricted for Capital Projects: The District has assets of \$592,757 restricted for construction.

Teachers' Salaries

Payroll checks written and dated in June 2016, for July and August 2016 payrolls from 2015–2016 contracts are included in the financial statements as a disbursement paid in the month of June.

Postemployment Benefits

In addition to the pension benefits described in Note 8, the District provides post-retirement healthcare benefits to all employees who retire from the District. The premium is paid fully by the retiree either monthly or quarterly at the retiree's discretion for the next period's coverage. There is no associated cost to the District under this program.

Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District provides healthcare benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the Federal government for this coverage. The premium is paid by the insured either monthly or quarterly at the insured's discretion for the next period's coverage. This program is offered for a duration of 18 months after the termination date. There is no associated cost to the District under this program.

Net Position

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District first applies restricted resources when a disbursement is incurred for purposes for which both restricted and unrestricted net position is available.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Balance

The District reports fund balances as restricted and unassigned in its governmental fund types. In the fund financial statements, restricted funds are constrained by outside parties (statute, grantors, bond agreements, etc.). Unassigned fund balances are those in the General Fund which are available for any purpose. Since the District has not established a policy regarding when committed, assigned and unassigned balances are used, the standard requires governments to report as if it is their policy to use committed resources first, then assigned resources, then unassigned resources. The District had only restricted and unassigned fund balances at June 30, 2016.

The nature and purpose of the restricted balances are:

Restricted for Debt Service: The District has \$196,785 restricted for purposes of servicing general obligation bonds.

Restricted for Capital Projects: The District has \$592,757 restricted for construction projects.

Assigned for Capital Projects: The District has \$8,154 assigned for capital projects.

Interfund Activity

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

NOTE 3 CASH AND INVESTMENTS

Deposits

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk and follows Missouri Statutes for deposits.

The District maintains a cash and investment pool that is available for use by all funds except the Debt Service Fund (State law requires that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District.) Each fund type's portion of this pool is displayed on the combined statement of assets, and fund balances arising from cash transactions under each fund's caption.

In accordance with applicable Missouri Statute, the District maintains deposits at depository banks authorized by the School District's Board.

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Deposits (Continued)

Missouri Statutes require that all deposits be protected by insurance, surety bond, or collateral. The market value of the collateral pledged must equal 100% of the deposits not covered by insurance or corporate surety bonds.

The District's deposits in banks at June 30, 2016, were entirely covered by federal depository insurance or by surety bonds and collateral in accordance with Missouri Statutes.

Investments

The District may purchase any investments allowed by the Missouri State Treasurer and Repurchase Agreements. These include (1) obligations of the United States government or any agency or instrumentality thereof maturing and becoming payable not more than three years from the date of purchase, or (2) repurchase agreements maturing and becoming payable within ninety days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity, as provided by law.

The District records all interest revenue related to investment activities in the fund which owns the security.

Custodial Credit Risk – Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District has a custodial credit risk policy to minimize credit risk by (1) pre-qualifying the financial institutions, brokers/dealers, intermediaries, and advisors with which the District will do business and (2) diversifying the portfolio so that potential losses on individual securities will be minimized. The District's investments were not exposed to custodial credit risk at year end.

Investment Credit Risk

The District has policies in place to minimize credit risk, the risk of loss due to the failure of the security issuer or backer, by:

- pre-qualifying the institution with which the District will do business.
- diversifying the portfolio so that potential losses on individual securities will be minimized.

Investment Interest Rate Risk

The District has policies in place to minimize the risk that the market value of securities in the portfolio will fall due to changes in general interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity and by investing operating funds primarily in shorter-term securities. Investments in banker's acceptances and commercial paper shall mature in no more than 180 days from purchase date and all other investments shall mature and become payable in no more than five (5) years from the purchase date.

NOTE 4 TAXES

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and payable by December 31. The county collects the property tax and remits it to the District.

The assessed valuation of the tangible taxable property for the calendar year 2015 for purposes of local taxation was \$735,194,030.

The tax levy per \$100 of the assessed valuation of tangible taxable property for the calendar year 2015 for purposes of local taxation was:

	Unadjusted	Adjusted
General (Incidental) Fund	\$ 3.3544	\$ 3.3544
Special Revenue (Teachers) Fund	1.7900	1.7900
Debt Service Fund	0.5699	0.5699
Capital Projects Fund	0.0625	0.0625
Total	\$ 5.7768	\$ 5.7768

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2016 aggregated approximately 96.38 percent of the current assessment computed on the basis of the levy as shown above.

NOTE 5 LONG-TERM DEBT

Long-term liability balances and activity of the District's Governmental Activities for the year ended June 30, 2016 were as follows:

	Balance June 30, 2015	Additions	Reductions	Balance June 30, 2016	Due Within One Year

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a district to fifteen percent of the assessed valuation of a District (including state-assessed railroad and utilities). The District did not exceed its legal debt margin at June 30, 2016.

Capital Leases

The District paid off all capital lease during the fiscal year ended June 30, 2016.

**WEBSTER GROVES SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 6 ADVANCE FUNDING

The District was authorized for borrowing \$2,500,000 through the PNC Bank, National Association and Trust Tax Anticipation Note Program. During fiscal year 2016, no amounts were disbursed to the District.

NOTE 7 OPERATING LEASES

The District has entered into several operating leases for various pieces of office equipment with various vendors. Payment terms vary by vendor and lease. Rent payments were \$118,863 in 2016.

Future annual lease payments for all equipment consist of the following:

Year Ended June 30,	Payment
2017	\$ 107,136
2018	98,773
2019	86,261
2020	43,210

NOTE 8 RETIREMENT PLAN

PEERS

Plan Description. PEERS is a mandatory cost-sharing multiple employer retirement system for all public school district employees (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of the Public School Retirement System of Missouri (PSRS) must contribute to PEERS. Employees of PSRS who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600 - 169.715 and Sections 169.560-169.595 RSMo.

The statutes place responsibility for the operation of PEERS on the Board of Trustees of the Public School Retirement System of Missouri. A Comprehensive Annual Financial Report ("CAFR") can be obtained at www.psrps-peers.org.

Benefits Provided. PEERS is a defined benefit plan providing service retirement and disability benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 1.61% benefit factor.

**WEBSTER GROVES SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2016**

NOTE 8 RETIREMENT PLAN (CONTINUED)

PEERS (Continued)

Members qualifying for "Rule of 80" or "30-and-out" are entitled to an additional temporary .8% benefit multiplier until reaching minimum Social Security age (currently age 62). Actuarially age-reduced retirement benefits are available with five years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount. A Summary Plan Description detailing the provisions of the plan can be found on PSRS' website at www.psrs-peers.org.

Cost-of-Living Adjustments (COLA). The PEERS Board has established a policy of providing a 2.00% COLA for years in which the CPI increases between 0.00% and 5.00%. If the CPI increase is greater than 5.00%, the Board will provide a COLA of 5.00%. If the CPI decreases, no COLA is provided. For any member, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

Contributions. PEERS members were required to contribute 6.86% of their annual covered salary during fiscal year 2016. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The School District's contributions to PEERS for the years ending June 30, 2016, 2015 and 2014 were \$545,019, \$584,053 and \$552,884, respectively, equal to the required contributions for each year.

PSRS

Plan Description. PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of PSRS, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the state of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989.

The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "2/3's statute."

NOTE 8 RETIREMENT PLAN (CONTINUED)

PSRS (Continued)

PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount. A Comprehensive Annual Financial Report ("CAFR") can be obtained at www.psr-peers.org.

Benefits Provided. PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Beginning July 1, 2001, and ending July 1, 2014, a 2.55% benefit factor is used to calculate benefits for members who have 31 or more years of service. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount. A Summary Plan Description detailing the provisions of the plan can be found on PSRS' website at www.psr-peers.org. Since the prior valuation date, the benefit provisions were amended to make permanent an early retirement benefit allowing members to retire at any age after 25 years of service.

Cost-of-Living Adjustments ("COLA"). The PSRS Board has established a policy of providing a 2.00% COLA for years in which the CPI increases between 0.00% and 5.00%. If the CPI increase is greater than 5.00%, the Board will provide a COLA of 5.00%. If the CPI decreases, no COLA is provided. For any member retiring on or after July 1, 2001, such adjustments commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

Contributions. PSRS members were required to contribute 14.5% of their annual covered salary during fiscal year 2016. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay. Contributions for employees of the State of Missouri were made by the state in accordance with the actuarially determined contribution rate needed to fund current costs and prior service costs of state employees as authorized in Section 104.342.8 RSMo.

The School District's contributions to PSRS for the years ending June 30, 2016, 2015 and 2014 were \$4,225,469, \$4,288,112 and \$4,104,568, respectively, equal to the required contributions for each year.

**WEBSTER GROVES SCHOOL DISTRICT

NOTE 9 PARTICIPATION IN PUBLIC ENTITY RISK POOL - (MUSIC)

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District was unable to obtain general liability insurance at a cost it considered to be economically justifiable and therefore joined together with approximately 467 other Missouri Public School Districts to form the Missouri School Insurance Council (MUSIC). MUSIC is a public entity risk pool currently operating as a common risk management and insurance program. The District does not pay premiums to purchase insurance policies but pays an assessment to be a member of the self-sustaining risk sharing group. Part of the assessment is used to purchase excess insurance for the group as a whole.

The pooling agreement requires the pool to be self-sustaining. The District believes that it is not possible to estimate the range of contingent losses to be borne by the District.

The District has not seen any decreases in insurance coverage over the prior year and settled claims have not exceeded coverage in any of the proceeding 3 years.

NOTE 10 COMMITMENTS AND CONTINGENCIES

Litigation

The District is subject to asserted and unasserted claims encountered in the normal course of business. The District's management and legal counsel assess such contingent liabilities and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the District or unasserted claims that may result in such proceedings, the District's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein. In the opinion of management, disposition of these matters will not have a material effect on the District's financial condition or results of operations.

Federal and State Receivables

Amounts received or receivable from federal or state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2016**

Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Webster Groves School District and is presented on the cash basis of accounting with the exception of the commodities, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles. The information in this schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*.

Summary of Significant Accounting Policies

Expenditures reported on the schedule of expenditures of federal awards are reported on the cash basis of accounting and, accordingly, represent the total cash expended for the program. The schedule of expenditures of federal awards does not include transactions that might be included using the accrual basis of accounting as contemplated by generally accepted accounting principles.

Indirect Cost Rate

The School District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Education
Webster Groves School District
Webster Groves, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Webster Groves School District, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Webster Groves School District's basic financial statements, and have issued our report thereon dated November 14, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Webster Groves School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Webster Groves School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Webster Groves School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Webster Groves School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR
EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of Education
Webster Groves School District
Webster Groves, Missouri

Report on Compliance for Each Major Federal Program

We have audited Webster Groves School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Webster Groves School District's major federal programs for the year ended June 30, 2016. Webster Groves School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Webster Groves School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Webster Groves School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Webster Groves School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Webster Groves School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of Webster Groves School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Webster Groves School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Webster Groves School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the result of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Transportation Costs

We have audited the accompanying cash basis financial statements of the governmental activities and each major fund of Webster Groves School District, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents. We have issued our report thereon dated November 14, 2016, which contained unmodified opinions on those financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Webster Groves School District's basic financial statements. The accompanying Schedule of Transportation Disbursements is presented for purposes of additional analysis as required by the Missouri Department of Elementary and Secondary Education (DESE) and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Transportation Disbursements is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

This report is intended solely for the information and the use of the administration, management, Board of Education, and the Missouri Department of Elementary and Secondary Education and is not intended to be and should not be used by anyone other than these specific parties.

REPORT ON COMPLIANCE WITH STATE REQUIREMENTS

Board of Education
Webster Groves School District
Webster Groves, Missouri

We have examined management's assertions that Webster Groves School District did comply with the requirements of Missouri laws and regulations regarding budgetary and disbursement procedures, attendance and pupil transportation records and other statutory requirements as listed in the Schedule of Selected Statistics. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on management's assertions about the District's compliance based on our examination.

Our examination was made in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, management's assertions that Webster Groves School District complied with the aforementioned requirements for the year ended June 30, 2016, are fairly stated, in all material respects.
